Dear Sir -

My Father has directed me to
prepare for private distribution among my
mother's friends, printed - a selection
from her poetical writings. Our plan is
to intersperse through the volume, extracts
from her journal and correspondence
illustrative of her life and character -

The many years of intimacy between my
mother and your lamented wife, must have
led to some correspondence between them,
and, if my mother's letters to Mrs. Lord, are
preserved, they may be of value, in the
above design, and you will confer a favor
on the family by submitting them to our
use. If you wish they will be returned to
you. A reply will much oblige

Yours very truly

D. W. Lord Esq.
